6. Budget discussion: The Town financial director used the actual budget for '19/20 to create the Town of Marineland proposed budget for '20/21. There was a discussion on which millage rate to use. If the Town uses the 10.0000 millage rate it will increase the Ad Valorem tax to \$113,262. In order to keep the Ad Valorem revenue at ~\$54,000 the Town would need to use a 4.8130 millage rate.

\* This discussion occurred under the assumption that the increased valuation of the Town put all of the tax burden on the private property owner. The Town clerk ran the numbers and found the Town's valuation by the Flagler county property appraiser includes the properties held by the Marineland Dolphin Adventure.

The commission directed the marina manager, Chris Kelley, to discuss the Possessory interest tax revenue with the Flagler county property appraiser.

Comprehensive plan update- There was a discussion on the current budget for Town planner and how much in excess will be needed to finish the comprehensive plan update.

The Commission decided the Town planner should work on the comprehensive plan update, and to remain within the previously budgeted amount plus \$4,000.

Motion to authorize the Town planner to work on the comprehensive plan review, with expenses not to exceed \$12,000.

Approved
